With the ever-increasing shift towards visually-based teaching spaces, educational institutions and their teachers are realising that truly effective multimedia presentation systems enhance student learning and engagement.

From design to implementation, making sense of the technology choices is key to delivering simple to use and reliable systems. Coupling these requirements with tight budget constraints can often prove difficult. Integrated Data Needs Ltd (IDN) have been providing bespoke solutions for the past decade and understand how to meet these challenges, providing cost effective solutions that support new methods of learning, research, and collaboration for your current and future requirements.

Whether you are integrating new instructional technology in existing spaces, upgrading existing infrastructure, or constructing new facilities, IDN can assist you in making the right technology decisions -advising on single classroom instructions, integrated lecture theatres or distance learning tools; whichever is the most appropriate.

What Audio Visual services do we provide?

We provide a large range of services to a varied customer base:

- Interactive Whiteboards – SMART and Promethean
- Projectors
- Hall Installations
- Professional Audio Installations
- Digital Signage
- Interactive Learning Centres
- Netbooks
- Visualisers
- SMART Interactive learning table
- Voting Systems

Why choose IDN?

IDN has been providing reliable Audio Visual services to its clients for over 10 years. We have a truly vendor-independent approach ensuring that the solution is not compromised.

We also understand that making a choice with the wide range of products on offer can be difficult, and that's why we have a fully functioning demonstration suite - but if more convenient, in most cases we can bring the products to you!

IDN have built the company's reputation on word of mouth and are known for our honest and customer focused approach. It is because of this approach that we have been Somerset Local Authority's preferred networking and audio visual contractor for the past 10 years and have been chosen to implement some very prestigious projects.
